So what do I do. Go back to the town where it's kill or be killed. I'm trying to take the high road in this matter. But the powers that be are taking that road away from me. It's almost as if they say "Yeah, we know people would put a hole in your head, we don't care how it or get handled".

I've Demanded Violence Along time ago. When I was sentenced to 65 months by Judge Kane, she told me I needed to get my life together. Now that I'm trying to do that I got Muthasuchar trying to take my life from me -- I'm reaching out for help -- not getting a lick of it.

It boils down to this, me coming with my head bowed humbly, asking for help, so I can avoid some leanness from taking place. I'm in the process of notifying the Mayor, I am not gonna sit by idly while they're forcing me to go into a war zone. Just like if I get to the war zone, I'm not gonna sit by idly while those troops send Muthasuchar at me with the intent to kill. Shit, it's time to grip up. When the law fails to help you even with fair warning, then shit, you gotta help yourself!

I'm praying I don't have to be forced into that, Cause it's not the way I want to live.

-N- They would notify the local Authorities of my Situation, Shit, whose the local Authorities do is Come Put the sheet over the dead Body -N- the Crime Scene tape up! Then they solve the Crime!

Mr. Dean, Chief Probation Officer -N- Judge have -N- let them know of My Rebuttal to being sent into this Situation!

Letter, ~~is~~ mean Reading this Letter! Thank you for Writing Me this Letter!

I'd talk to with you guys! Remember, When A Person reaches out for help, it's never Good to just turn your back, Especially if you see Me. IF you have Any Response, your Call could save that Man's life,

Some thing Back in I hope to hear at least Regards to the Matter!

Respectfully,  
Scott Modest
